Introduction

Brand Story

The name, "**Aqara**" is derived from two Latin words: "acutulus" (smart) and "ara" (home). At Aqara, we're committed to creating holistic, personalized smart home experiences that are accessible to everyone.

As a global leader and pioneer in IoT, the Company offers one of the widest selections of smart products ranging from smart sensors to switches, curtain controllers, smart cameras and smart door locks. Winner of over 300 awards, Aqara's products are designed in-house and are equipped with cutting-edge hardware technology, sophisticated software design, and AI capabilities.

Aqara's solutions are designed to integrate seamlessly with major third-party ecosystems like Apple Home, Amazon Alexa, Google Home and Samsung SmartThings, offering users unparalleled flexibility. Our products are especially tailored to provide the ultimate smart home experience and augment everyday life by making homes safer, more comfortable, sustainable, and adaptive to our evolving needs.

Currently, the company serves over 12 million users across five continents.

Scenes

Good Morning

Start a beautiful day with Aqara. The curtains can automatically open to let the sunshine in.
Air purifier, bathroom light, and the coffee maker can all be turned on with a single press of a button.

Set a specific wake-up time,
and Aqara will automatically

· Turn off the night light.
· Open the curtains.
· Turn on the coffee maker.
· Turn on the lights.
· Turn on the air purifier.
· Disable the alert mode.

Hub + **Curtain Driver** + **Smart Plug** + **Wall Switch** + **Ceiling Light**

Good Night

Time to say good night. Simply say "Good Night" to your voice assistant to turn off all lights, close all curtains, and activate the Alert Mode.

Say "Hey Siri, Good Night", Aqara will automatically

· Set a comfortable temperature in bedroom.
· Turn off the lights in the entire house.
· Close the curtains.
· Enable the alert mode.

| Hub | | Roller Shade Driver | | Smart Plug | | Wall Switch | | LED Strip |

Coming Home

Upon your arrival, the curtains can open automatically and the living room lights, humidifier, and heater can also turn on simultaneously.

When you open the Aqara Door Lock, Aqara will automatically

· Turn on the lights in the living room.
· Turn on the humidifier.
· Turn on the heating.
· Disable the alert mode.

Hub	+	Curtain Driver	+	Smart Plug	+	Wall Switch	+	Smart Door Lock	+	Thermostat

Away Mode

Have you ever left home in a hurry and realized that you had forgotten to turn off the lights and other home appliances? With Aqara products, you will be able to check the status of your electric appliances and turn them off remotely via your phone or your favorite voice assistant.

Use Aqara Home geofencing automations to activate the "Away Mode" scene, and Aqara will automatically

· Turn off all the lights.
· Turn off all the appliances.
· Enable the alert mode.
· Close the curtain.
· Enable feeding schedule for your pet.

Hub	+	Roller Shade Driver	+	Smart Plug	+	Wall Switch	+	Pet Feeder

Products

Each of the products is marked with a tag that stands for the region where the products are available:

AU - Australia + New Zealand

CIS - Commonwealth of Independent States

EU - European Union and UK

JP - Japan

KR - South Korea

NA - North America

SEA - South-East Asia, Middle East and Africa

US / EU Plug - The product is only available in these specific plug versions

Please note: some of the products require additional certifications or after-sales service. For more details, please contact your account manager.

Hubs

Hub M3 Global

Next-generation Matter hub for Aqara and third-party devices with a focus on Edge Computing

The Hub M3 prioritizes privacy and local automations, which can now function without the internet or even the hub itself.

It features versatile connectivity, including dual-band Wi-Fi and PoE, as well as a 360° IR blaster that can link your AC to Matter and adjust it based on real-time room temperature from the Climate Sensor.

As a powerful multiprotocol hub, it seamlessly integrates Aqara and, for the first time, third-party Matter devices, serving as a central point for smart home automation while ensuring privacy and easy setup.

| Hub for Aqara and Third-Party Devices | Edge Computing and Local Automations | IR Blaster with Feedback and Learning | Superior Wired and Wireless Connectivity | Focus on Privacy and Encrypted Storage | Easy Installation and Flexible Placement | Powerful Speaker and Custom Ringtones |

Hub M100 Global

A USB-A Zigbee & Thread Smart Home Hub

The M100 is a compact smart home hub, about the size of a USB stick, serving as the central control for home automation. It features Zigbee and Thread connectivity, functioning as both a Matter hub and controller, and a Thread border router. With its ARM Dual-Core A7 chip running at 1GHz and WiFi6 support, it efficiently handles data processing and automation. The hub easily integrates with Apple HomeKit and other third-party systems via Matter. Simply plug it into any USB-A port to manage and control your smart home devices.

Cameras

Camera G100 Select Global

Durable 2K Resolution Security Camera with Day & Night Vision

The camera G100 is weather-resistant and suitable for both outdoor and indoor use. It provides a superior image quality thanks to its 2K resolution and f/1.8. It features two night vision modes: spotlight and infrared night vision with invisible backlight diodes. The camera supports microSD cards for 24/7 local recording, and can back up the recordings to an SMB NAS. The G100 supports local motion and human detection, as well as custom ringtones, that can be used in automations. And, it has one of the best third-party ecosystem support, including Apple Home, Google Home, Alexa, SmartThings and even Home Assistant via RTSP protocol.

Doorbell Camera Hub G410 Select Global

A Doorbell Camera Hub with unmatched smart home ecosystem support, and a focus on local automations

The Doorbell Camera Hub G410 is a HomeKit Secure Video doorbell that combines improved 2K image quality, advanced presence detection, as well as Zigbee hub and Thread-enabled Matter Controller functionalities. This allows it to be connected to dozens of Aqara and third-party devices, such as door locks. Equipped with built-in mmWave radar and face recognition, it provides highly accurate alerts and automations without compromising privacy. It boasts expandable local storage for 24/7 recording and, for the first time, end-to-end encrypted video streaming directly to the Aqara Home app.
